Special Notes

SPECIFICATIONS

-Cabinets constructed of 16ga steel and finished with powdercoat paint
 -Both ends notched for pipework passage, side entry
 -Removable access door for access to piping and ductwork feeding adjacent QLCI terminals

***Indicates an added cost item.**

-Additional lead time may be required
 -Contact Carson Solutions for more information
 Custom sizes available

DEPTH (W)

- ☒ 13 1/2" (R)
☐ 16 5/8" (S)

REAR HEATER (Not Available)

- ☒ No Rear Heater (as shown above) (0)

CABINET FINISH

- ☐ White (1) ☐ Gray (3) ☐ NLA (5) ☐ Other* (PX - Must Specify)
☒ NLA (2) ☐ Dark Gray (4) ☐ Ivory (6)

BASE/KICKPLATE OPTIONS

- ☐ Kick plate same finish as Casing (0)
☐ Black Painted Kick plate* (K)
☒ No Base - Field Supplied (N)

CARSON SOLUTIONS

HSS Series Specifications Stainless Steel Braided Hose

PRODUCT DESCRIPTION: The Model HSS is a stainless steel braided hose that is abrasion resistant. The HSS has a CPE inner tube with brass end connections and stainless steel ferrules for the ½" - 1" hose sizes, and an EPDM inner tube with stainless steel ferrules and plated steel end connections for the 1¼" - 2" hose sizes. The flexible hose eases installation and is designed to withstand high pressures and varying temperatures. The standard end connections are MNPT Fixed x MNPT Swivel. Other available end connection options are FNPT Swivel, Union Swivel *, and Fixed Tailpiece** connections; available for the ½", ¾", and 1" hose sizes. The Model HSS is BUY AMERICAN COMPLIANT.

* The Swivel Union comes standard with an EPDM O-ring, tailpiece, and union nut which must be specified at the time of order. The swivel union easily converts line connection types and offers line size reductions. The tailpieces are available in FNPT, MNPT, and Sweat ends.

** The Fixed Tailpiece hose end connection is designed to connect directly to union ended coil kit components (AFLB, AFLD, AU, CBV, IBU, or IVY). The tailpiece end eliminates multiple connections.

| PRODUCT SPECIFICATIONS | |
|------------------------|--|
| Tube | CPE (Chlorinated Polyethylene) for ½" - 1" sizes - SAE J1019 EPDM (Ethylene Propylene Diene Monomer) for 1¼" - 2" sizes - SAE 20R1-D1 |
| Reinforcement | 304L Stainless Steel braid cover meets UL-94 requirements |
| Ferrules | Type 304L stainless Steel ½" - 1" I.D. - Brass |
| End Fittings | 1¼" - 2" I.D. - Steel Plated -40°F to 257°F (-40°C to 125°C) |
| End Connections | NPT Male, NPT Male Swivel, NPT Female Swivel (½" - 1"), Swivel Union * (½" - 1"), Tailpiece ** (½" - 1") |
| Temperature | Meets UL-94 Requirements |
| Ratings | Fire Retardant Material (CPE) |

Specification information is provided to assist and is given without obligation or warranty. The Company reserves the right to make changes in design, materials, and/or specifications without notice.

| Size | Length | Working PSI | Bend Radius | ** Cv |
|------|--------------------|-------------|-------------|-------|
| ½" | 12, 18, 24, 30, 36 | 500 PSI | 5" | 7 |
| ¾" | 12, 18, 24, 30, 36 | 500 PSI | 7" | 20 |
| 1" | 12, 18, 24, 30, 36 | 500 PSI | 7" | 43 |
| 1¼" | 12, 18, 24, 30, 36 | 200 PSI | 12" | 76 |
| 1½" | 18, 24, 30, 36 | 200 PSI | 12" | 130 |
| 2" | 18, 24, 30, 36 | 200 PSI | 20" | 280 |

Length is measured End to End on all hose connection types.

** Cv listed in chart above is for a 24" length hose. The Cv is estimated and can vary according to installation.

HSS Series Options Stainless Steel Braided Hose

Fixed MNPT

Swivel MNPT

Standard Hose Configuration

Additional End Connections

Swivel FNPT

Available in 1/2", 3/4", & 1"

Swivel Union

Available in 1/2", 3/4", & 1"

The Swivel Union must have the tailpiece connection size and type specified at time of order. Tailpiece options include FPT, SWT, MPT, and a variety of reductions.

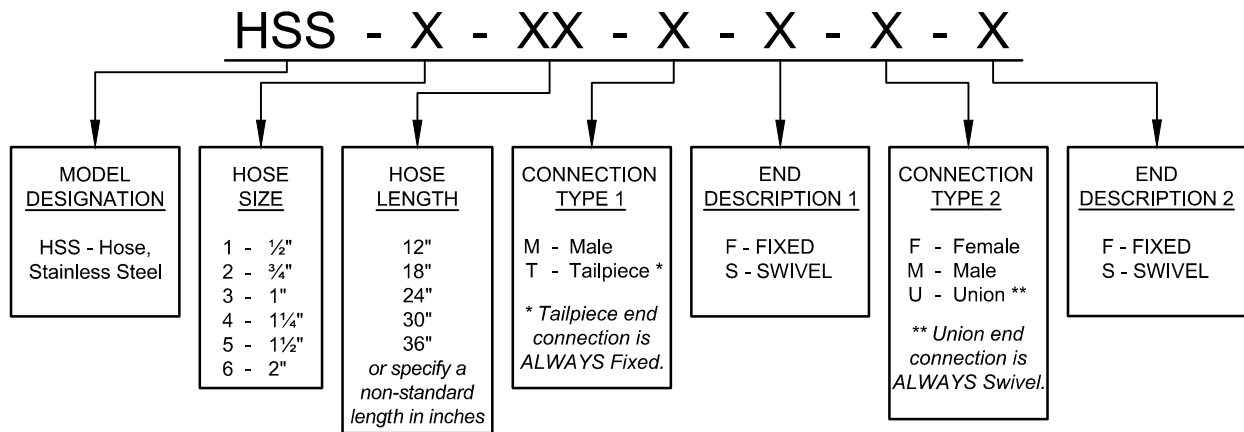

Fixed Tailpiece

Available in 1/2", 3/4", & 1"

The Fixed Tailpiece connects directly to PRO Hydronic Specialties' union ended products.

CARSON SOLUTIONS

When ordering, at least one hose end connection must be a swivel.
