STANDARD CABINET SECTIONS

A variety of modular designs are available for the QLCI to best fit your space. All cabinets are designed for the rigors of the classroom environment with 16ga steel and powdercoat paint.

Basic Utility Compartment (BUC): The basic utility cabinet features a removable access door to service piping and ductwork feeding into the adjacent QLCI terminals. Plus, the compartment is notched for pipework passage.

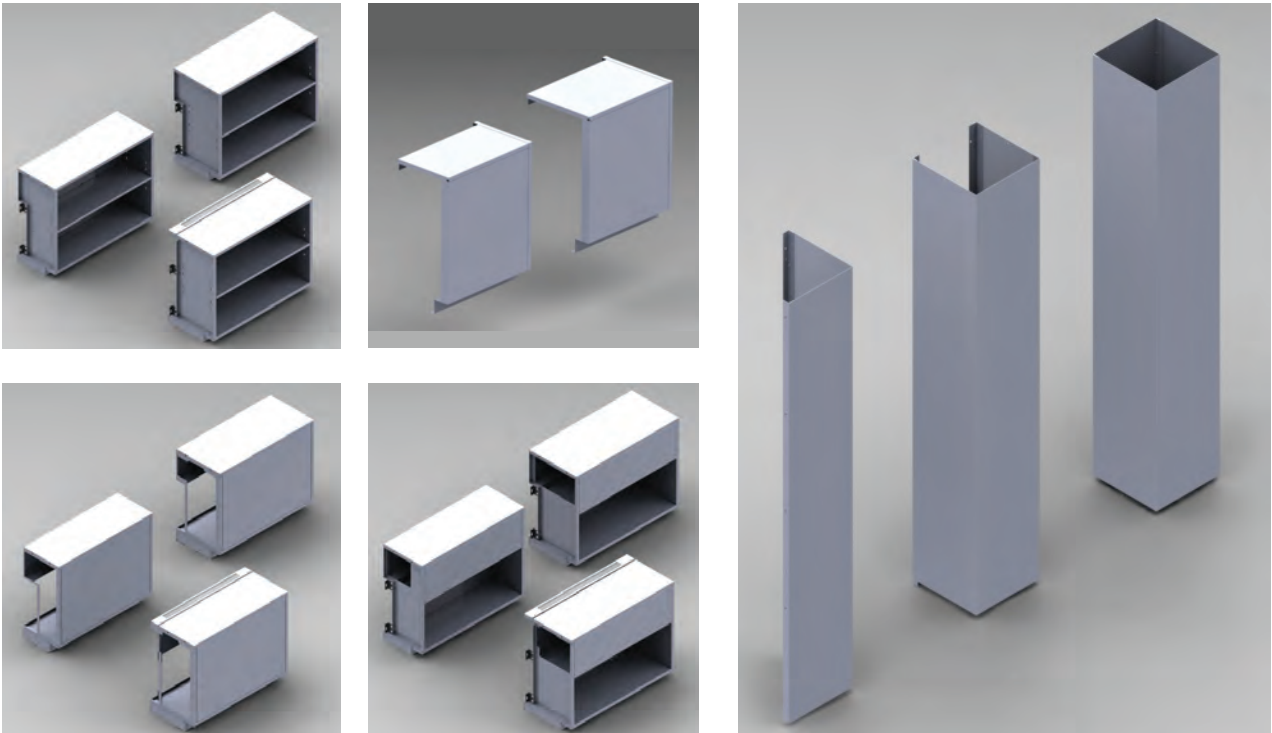

Basic Bookshelf Selection (BBS): These bookshelves are available in a variety of lengths, configurations, and provide adjustable shelving to best utilize your space. Plus, both ends notches for pipework passage to the QLCI terminals.

Basic Filler Section (BFS): The horizontal fill section can be cut to fit in the field and includes floor angle, wall offset strip and hardware for easy installation.

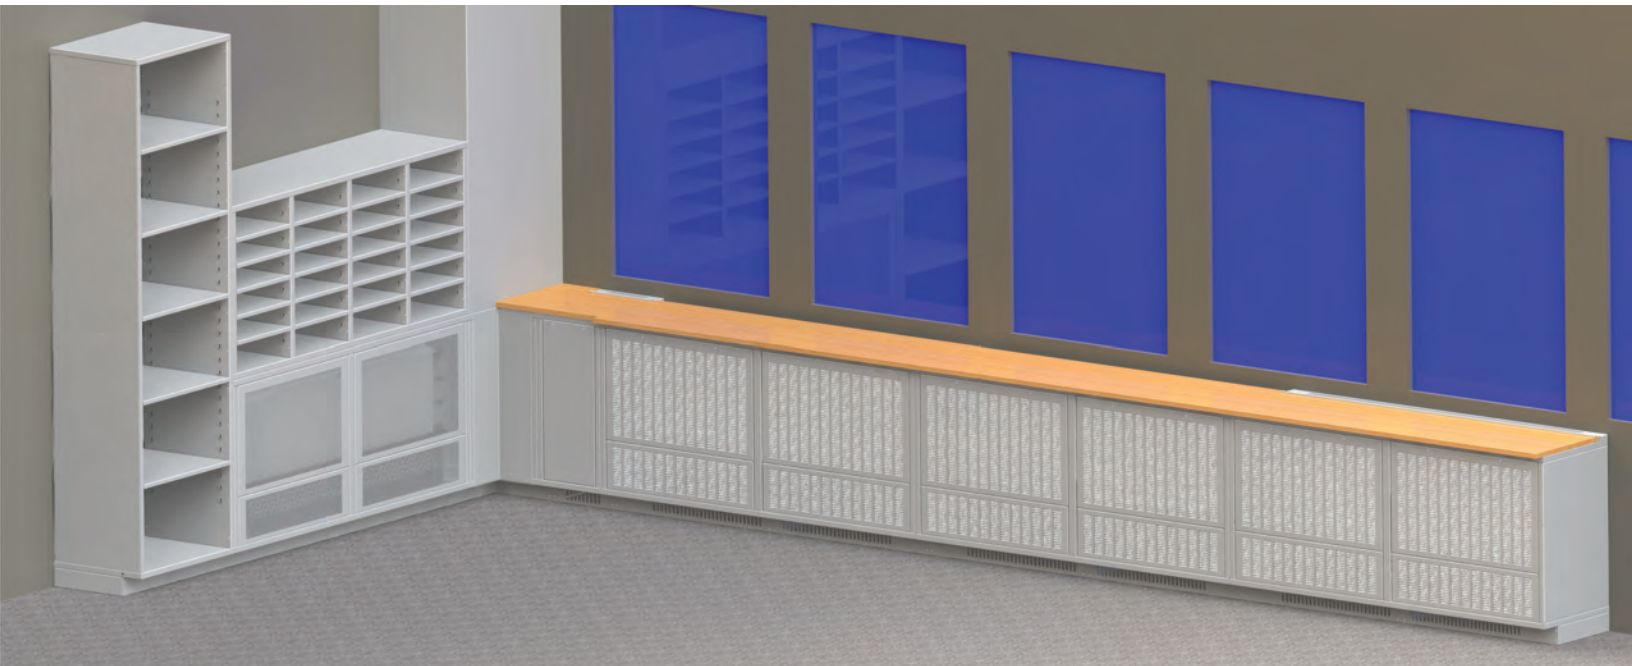

Vertical Duct Cover (VDC): The vertical duct cover can be field mounted and includes wall angles with countersunk screws and plates to be mounted on top of QLCI.

Can't find one to best fit your space?

MODULAR STORAGE AND SHELVING

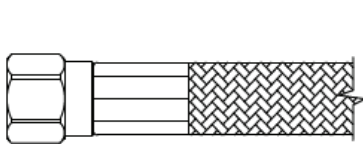

Create custom storage arrangements for your room!

In-line and top mounted storage units are available to create additional storage options for your space. Utilize custom cubby or vertical shelving, or a combination of both, to meet the specific requirements of your installation. Standard adjustable shelves and cabinet construction will match the QLCI unit for a consistent fit and finish.

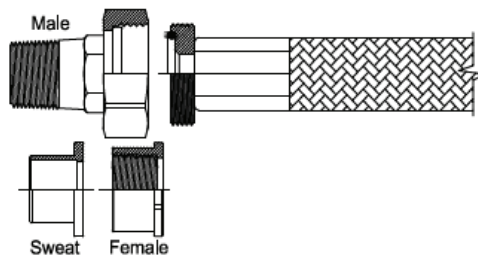

HOSE KITS

Stainless Steel Braided Hose

Carson Solutions hose kits are stainless steel braided hoses that are abrasion resistant. These flexible hoses ease installation and are designed to withstand high pressures and varying temperatures. The standard end connections are MNPT Fixed and MNPT Swivel. Other available end connection options are FNPT Swivel, Union Swivel, and Fixed Tailpiece connections; available for 1/2", 3/4", and 1" hose sizes.
